

Mostafa Qurany

Flutter Developer | Mobile App Specialist

📍 Beni Suef, Egypt

✉ mostafa.qurany.prog@gmail.com | 📞 +201149075894

Professional Summary

Motivated Flutter Developer with a background in Computer Science and a passion for solving real-world problems through mobile development. Specialized in building high-performance Android and iOS applications using Flutter and Dart, with experience in Java, C++, and Python. Skilled in implementing clean architecture, OOP, and design patterns like MVC, MVP, and MVVM. Adept at integrating RESTful APIs, optimizing performance, and delivering pixel-perfect UI across platforms. Enjoys working in fast-paced environments and collaborating with teams to bring innovative app ideas to life.

Work Experience

Flutter Developer

Simple Galaxy Software Development Company

📍 Beni Suef, Egypt | 📅 Jan 2024 – Present

- Developed cross-platform mobile applications for Android and iOS using Flutter.
- Implemented real-time features and backend integration via RESTful APIs and Firebase.
- Applied Object-Oriented Programming (OOP) principles and patterns like MVC, MVP, and MVVM.
- Designed clean, reusable components and UI systems, ensuring high performance and responsiveness.
- Collaborated with team members across Information Technology, design, and QA to deliver scalable and testable codebases.
- Handled application deployment and maintenance on Google Play Store.

Freelance Developer Taagira App (Car Renting App)

📍 Remote | 📅 2025 – Present

- Created a full-stack mobile app focusing on car rental workflows, authentication, and geolocation-based search.
- Worked with networking, Firebase, and local storage using Hive and Shared Preferences.
- Developed and tested app for both iOS and Android platforms.

- Ensured strong architecture using OOP, SOLID, and MVVM principles.

Flutter Developer V-School App (Team Project)

📍 Remote | 📅 2025– Present

- Worked on a complete education management app supporting real-time updates, notifications, and scheduling.
- Integrated RESTful services, user roles, and classroom features using Firebase.
- Built features with clean separation of concerns using MVVM architecture and modular design.

Education

Bachelor's Degree in Computer Science (Expected or Completed)

Beni Suef University

📍 Beni Suef, Egypt | [2020 –2023]

Technical Skills

- Languages & Frameworks: Dart, Java, Swift, C++, Python, Flutter
- Mobile Development: Android, iOS, Cross-Platform App Development
- Architecture & Design: OOP, MVC, MVP, MVVM, Clean Architecture, SOLID Principles
- Tools & Technologies: Git, Firebase, Supabase, RESTful APIs, Hive, Shared Preferences, Networking
- Design & UX: UI/UX Design, Responsive Layouts, Design Patterns, flutter_screenutil, Theme System
- Other: Information Technology, Application Deployment, Agile, Version Control

Additional Info

- Participated in ACPC (Arab Collegiate Programming Contest) – passionate about competitive programming
- Strong focus on problem-solving, clean code, and scalable solutions
- Projects published or demoed on GitHub and Play Store (add links if available)
