PROFILE

I'm a passionate Flutter developer with over two years of experience building high-performing, user-friendly mobile apps. I have a strong foundation in algorithms and data structures, which helps me solve problems efficiently and create optimized solutions. With expertise in Dart, design patterns, and architectural approaches like MVVM, I thrive on turning ideas into scalable, impactful applications. Also, I'm a quick learner who loves exploring new technologies and finding innovative ways to improve my work. So, I'm excited to contribute my skills and grow further in a challenging and collaborative environment.

EDUCATION

Bachelor's in Computer Science
Beni Suef University

2019 – 2023
Bani Suaf, Egypt

PROFESSIONAL EXPERIENCE

flutter developer
Simple Galaxy

02/2024 – present
Bani Suaf, Egypt

Working on Halla Contact App

A versatile app to simplify contact sharing through modern technology. Features include:

- NFC Login for seamless authentication.
- QR code scanning for instant contact sharing.
- Firebase for secure authentication and data storage.
- Hive for local storage of user information.
- Built with BLoC pattern and MVVM architecture ensuring scalability and maintainability.
- Intuitive UI/UX design with smooth animations for an engaging user experience.

PROJECTS

Wasla

Graduation Project

Designed and developed a feature-rich platform enabling users to request and deliver goods across cities, fostering low-cost, user-driven transactions.

- Architecture & State Management:

Implemented clean architecture to ensure modularity, scalability, and maintainability of the codebase.

Utilized the Provider package for efficient and reactive state management across the app. Applied SOLID principles and best practices in object-oriented programming to enhance code quality and reusability.

- UI/UX Design:

Designed a user-friendly interface from scratch, focusing on intuitive navigation and accessibility. Created smooth and engaging animations to enhance the user experience and add visual appeal. Prioritized a polished, consistent look-and-feel for both clients and couriers to simplify app interactions.

- Technical Features:

Integrated Firebase for real-time database and cloud storage, ensuring seamless order tracking and data synchronization. Used Shared Preferences and Hive for optimized local data storage, improving app responsiveness and offline capabilities. Developed a secure authentication system using Gmail, OTP verification, and national ID integration for user validation. Designed and implemented an in-app chat system with natural language processing (NLP) to identify inappropriate content and automate reporting to the admin system. Established a robust contract system with dynamic payment methods, deal states, and real-time updates to enhance transaction transparency. Built an admin dashboard to manage users, orders, reports, and disputes, ensuring smooth operations and policy enforcement.

RESPONSIBILITIES

Responsibilities

- Develop high-quality mobile applications using Flutter, ensuring excellent performance across iOS and Android platforms.
- Implement visually stunning, pixel-perfect UI designs and intuitive user interfaces.
- Utilize state management techniques such as BLoC, Provider, or Cubit to ensure efficient application state handling.
- Integrate backend services and APIs for seamless data synchronization and functionality.
- Conduct unit testing, debug issues, and optimize app performance for smooth user experience.
- Implement CI/CD pipelines to automate the build, test, and deployment process.
- Stay updated with the latest Flutter advancements and best practices to ensure application efficiency.

TECHNICAL SKILLS

Programming Languages:

- Dart,
- Java
- Kotlin
- Python
- SQL
- C++

Frameworks & Libraries

- Flutter
- Retrofit
- json_serializable
- Freezed, Cubit
- Provider
- BLoC

Database & Backend

- Firebase
- Supabase
- Hive
- RESTful APIs

Version Control

- Git
- GitHub

Testing & Debugging

- Unit Testing
- Debugging Tools

SOFT SKILLS

Soft Skills

- Problem-Solving
- Adaptability
- Collaboration & Communication
- Attention to Detail
- Creativity
- Time Management
- Critical Thinking
