

MOSTAFA QURANY

+201149075894 | mostafa.qurany.prog@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Senior Flutter Developer with 3+ years of experience delivering production-ready mobile applications across Android and iOS. Specialized in building scalable POS systems, offline-first architectures, and enterprise solutions. Expert in state management (BLoC,GetX, Riverpod), clean architecture, Bluetooth printing integration, and real-time data synchronization. Proven track record of leading full development lifecycles from requirements analysis to deployment.

TECHNICAL SKILLS

Mobile Development: Flutter (Android & iOS), Dart, Cross-Platform Development, Responsive UI, Material Design
State Management: BLoC, Cubit, Riverpod, Provider, GetX
Architecture Patterns: Clean Architecture, MVVM, MVP, MVC, SOLID Principles, Repository Pattern, Dependency Injection
Backend & APIs: RESTful APIs, Firebase (Auth, Firestore, Cloud Functions, FCM), Supabase, Node.js
Data & Storage: Hive, SQLite, Shared Preferences, Local Caching, Offline-First Architecture
Specialized Skills: Bluetooth Printing (POS/ESC/Sunmi), QR Code Integration, NFC, Payment Gateways
Testing & Tools: Git, GitHub, GitLab, Agile/Scrum, CI/CD, App Store Deployment, Play Store Publishing
Languages: Dart, Java, Kotlin, Swift, C++, Python

PROFESSIONAL EXPERIENCE

Flutter Developer (Sole Mobile Developer)
Innovation Stars

Apr 2025 – Present
Beni Suef, Egypt

- Architect and develop 5+ production mobile applications for POS systems, parking management, healthcare, and business operations serving 1000+ daily users
- Implement advanced Bluetooth printing solutions (POS/ESC/Sunmi printers) with QR code scanning and invoice generation for retail and service industries
- Design offline-first architectures with local caching strategies, ensuring 99% app availability and seamless data synchronization
- Build role-based access control systems and multi-tenant architectures for enterprise applications
- Lead complete SDLC including requirements analysis, technical architecture design, development, testing, and deployment to both app stores
- Optimize app performance achieving 60 FPS rendering and reducing app load times by 40% through efficient state management and caching

Flutter Developer
Simple Galaxy Software Development Company

2024 – 2025
Beni Suef, Egypt

- Developed and deployed cross-platform mobile applications using Flutter, Firebase, and RESTful APIs with clean architecture principles
- Collaborated with cross-functional teams to deliver scalable, maintainable applications using MVVM and BLoC patterns
- Managed full app lifecycle from design through deployment, successfully publishing multiple apps to Google Play Store and Apple App Store

Freelance Flutter Developer
Independent

2022 – 2024
Remote

- Delivered 10+ mobile applications across diverse domains including car rentals, education platforms, POS systems, and social networks
- Integrated advanced features including AI capabilities, NFC payments, real-time chat, and offline synchronization

KEY PROJECTS

Parking Management System | *Flutter, BLoC, Bluetooth Printing, QR Code, Local DB*

2025

- Smart parking solution with POS/Sunmi printer integration for invoice generation and QR-based vehicle tracking
- Implemented session management with automated fee calculation and real-time parking state monitoring (parked/calling/exited)

Wafy Restaurant POS | *Flutter, Riverpod, Hive, Invoice System*

2025

- Tablet-based restaurant management app with offline-first menu caching and table state management
- Built efficient local caching system reducing menu load times by 60% and enabling full offline functionality

- Dr. DrugJo Medical Platform** | *Flutter, Firebase, Multi-Role Architecture*

2025
- Comprehensive medical platform serving doctors, nurses, pharmacies with drug databases, directory, quizzes, and job listings
 - Architected scalable role-based system handling 10,000+ pharmaceutical records with optimized search and filtering
- Invotek Company Management** | *Flutter, BLoC, POS Printing, Permission System*

2025
- Enterprise management system for products, customers, expenses, and tax invoices with granular user permissions

EDUCATION

Beni Suef University of Computer and Artificial Intelligence
Bachelor's Degree in Computer Science

2020 – 2023
Beni Suef, Egypt

CERTIFICATIONS & ACHIEVEMENTS

Competitive Programming: ACPC (Arab Collegiate Programming Contest) Participant

Core Competencies: Problem-solving, Critical Thinking, Agile Collaboration, Clean Code Practices
